About Me

Hi, I'm Meysam. I'm a front-end web developer specializing in WordPress. In 2006, at the same time as I started working in a web design company, I learned web design with html and joomla, and then WordPress and graphic design. I've been freelancing in this field for years in my spare time, but I've finally decided to work as a full-time freelancer.

Education

Frontend Development
WORLD UNIVERSITY

During all this time, I was learning and doing web design work on a freelance basis

2006 - Now

Frontend Development
UNIVERSITY OF APPLIED SCIENCE AND TECHNOLOGY

I have obtained a bachelor's degree in web programming from the University of Applied Science and
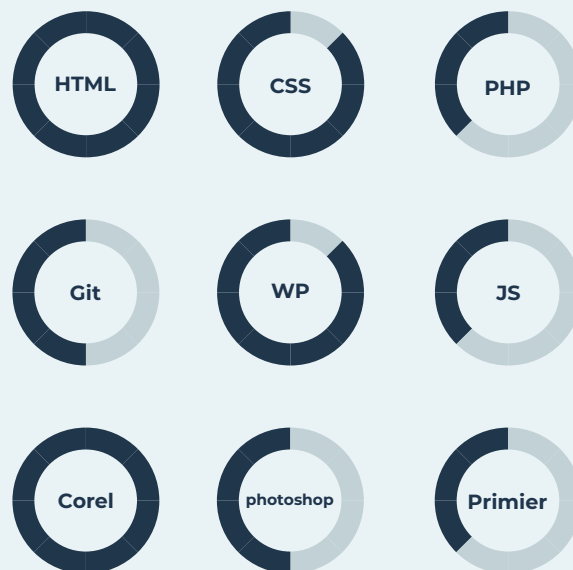

2016 - 2018

Experience

Web Designer, Freelancer.

2006 - Now

- Install and configure hypertext transfer protocol (HTTP) servers and associated operating systems.
- Design, build, or maintain web sites, using authoring or scripting languages, content creation tools, management tools, and digital media.
- Develop or implement procedures for ongoing web site revision.
- Identify problems uncovered by testing or customer feedback, and correct problems or refer problems to appropriate personnel for correction.
- Communicate with network personnel or web site hosting agencies to address hardware or software issues affecting web sites.
- Evaluate code to ensure that it is valid, is properly structured, meets industry standards and is compatible with browsers, devices, or operating systems.
- Analyze user needs to determine technical requirements.
- Write, design, or edit web page content, or direct others producing content.
- Develop or validate test routines and schedules to ensure that test cases mimic external interfaces and address all browser and device types.
- Collaborate with management or users to develop e-commerce strategies and to integrate these strategies with web sites.
- Renew domain name registrations.
- Back up files from web sites to local directories for instant recovery in case of problems.
- Identify or maintain links to and from other web sites and check links to ensure proper functioning.
- Register web sites with search engines to increase web site traffic.

Graphic Designer, Prince Stamp Co.

2013 - 2018

- Prepare illustrations or rough sketches of material, discussing them with clients or supervisors and making necessary changes.
- Photograph layouts, using camera, to make layout prints for supervisors or clients.
- Determine size and arrangement of illustrative material and copy, and select style and size of type.
- Key information into computer equipment to create layouts for client or supervisor.
- Develop negatives and prints to produce layout photographs, using negative and print developing equipment and tools.
- Prepare notes and instructions for workers who assemble and prepare final layouts for printing.
- Confer with clients to discuss and determine layout design.
- Mark up, paste, and assemble final layouts to prepare layouts for printer.
- Study illustrations and photographs to plan presentation of materials, products, or services.
- Research new software or design concepts.
- Develop graphics and layouts for product illustrations, company logos, and Internet websites.
- Create designs, concepts, and sample layouts based on knowledge of layout principles and esthetic design concepts.
- Use computer software to generate new images.
- Draw and print charts, graphs, illustrations, and other artwork, using computer.
- Review final layouts and suggest improvements as needed.
- Maintain archive of images, photos, or previous work products.
